DETAILED ACTION

Reason for Allowance

1. Claims 1-19 are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Fork et al.6392791. The improvement comprises as follows:

Claims 1-15 are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious a pump source providing a pump signal for exciting the polymer amplifying medium, wherein signals passing through the optical component are routed through the polymer amplifying medium in combination with the rest of the limitations of the base claim.

Claims 16-18 are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein a layer of the polymer amplifying medium is provided over the reflective surface in combination with the rest of the limitations of the base claim.

Claim 19 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious amplifying the signal by means of a polymer amplifying medium forming or provided over the lens in combination with the rest of the limitations of the base claim

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
